Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9 June 2005 has been entered.

Drawings

2. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because of the reasons set forth on the attached form (PTO-948). Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Specification

3. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: the written description fails to make use of the term "effigy".

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the

Art Unit: 3721

art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 23-26 and 28 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The written description, and the original claims, have been carefully reviewed and by the examiner, and it is the opinion of the examiner that the claims present subject matter which fails to find support in the disclosure as originally presented. That is, the claims 23-26 and 28 present new matter which is not supported by the disclosure, as originally filed.

Claims 23-26 and 28 each recite "an effigy". There is no support for this subject matter in the written description, including the claims, as originally filed.

Claim 28 also recites at lines 7-17, "portraying at a location on the surface, proximate a first edge thereof, a first feature of an effigy head, and portraying on the surface a second feature of an effigy head, said first feature unrelated to said second feature when the item is in said first configuration, said features giving no suggestion of a complete effigy head when said item is in said first configuration". There is no support for this subject matter in the written description, including the claims, as originally filed.

Claim 28 also recites at lines 23-28, "when it is in the second configuration, it gives context to a complete effigy by simulating a body of the effigy with the features positioned appropriately with respect to the simulated body formed by the item to

Art Unit: 3721

suggest the effigy's head". There is no support for this subject matter in the written description, including the claims, as originally filed.

A review of the originally filed disclosure does not provide support for the claimed subject matter presently found in claims 23-26 and 28. Accordingly, applicant is required to either amend the claims to cancel the new matter or present clarification as to how/where the subject matter of the present claims is found in the disclosure, as originally filed. Appropriate correction is required.

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 23-26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 23, lines 6 and 7, the recitation "said feature" renders the claim vague and indefinite because claim 28 recites a first feature and a second feature, and it is unclear from the language of claim 23 as to which feature applicant is referring.

Response to Arguments

8. Applicant's arguments with respect to claims 23-26 and 28 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen F. Gerrity whose telephone number is (571) 272-4460. The examiner can normally be reached on Monday - Friday from 5:30 - 2:00.
